

Kemble & District Lions Club July 2022 Project

16*12 Horse Shelter Barn for GRACE

Lion Doug Gilkinson brought a project to our club to consider, this past February. Basically, build an outdoor shelter for horses for the Georgian Riding Academy for Challenged Equestrians. {G.R.A.C.E.} at Wicklen Stables, located in Springmount, just west of Owen Sound.

Lion Doug managed to acquire All Lumber through donations as well as the cutting of this lumber by Durk DeVries and Don Roi. Lion Paul Morris became the Engineer for this project, creating the drawings as well as determining what metal joiners and supplies would be needed.

This July, work started, and the “barn” was built by Lions: Doug Gilkinson, Paul Morris, Don Dailey, Gladys Ann O’Keefe, Charlie McClure, and Jim Bumstead, as well as help from Neil Havens of Wicklen Stables.

Lion Doug stated, "This was one of the best projects that he had ever worked on in Lions". The following pictures show the finished product as well as stages of construction.

We are very proud of this project and GRACE is extremely appreciative.
